The Fragment pattern is made with one layer of black glass on the outside of the bowl with Starphire glass on the inside to allow visibility of the gold between the layers.

Therefore, the single layer of black is not a dense black and appears more like Vitraform Grey glass. Items 100, 150, 170 and 171 Standard Basins and Items 203, 213, 253 and 263 Rimless Undermount Basins are not recommended for vanity installations due to the sheerness of the finish.

Detail of Lustre finish shown in Rose Gold.

Matte / Lustre

Finish

Matte: This delicate, artisan process of hand applied gold leaf is captured between the two layers of glass in Vitraform's Standard or Freestanding Basins.

Lustre: adds a secondary layer of small shiny gold spots to the background of the Matte finish.

Color

Matte or Lustre Finish is offered on our Cristal Antique glass and may be ordered in Rose Gold (shown) or White Gold. Subtle variations on each basin may be expected as part of sensitive and intricate technique. Custom requests for other glass colors will be considered by special order.
