Now Introducing State Water Heater Warranty Check App for iPhone, iPad, and Android

Description

The State Warranty Check app for plumbers and contractors puts water heater warranty information in the palm of your hand.

No need to waste time on the phone, or wait until you get back to the office to check the warranty status of your customer's State water heater.

Features

- Check if a State water heater is in warranty
- Check when the warranty expires on a State water heater
- View product details about a water heater, including model number, series number & date of manufacture
- Works on both commercial and residential products
- Works on products installed in both commercial and residential environments
