

New Product Announcement: Stainless Steel Entry & Leversets

EMTEK
ASSA ABLOY

Contemporary styled Davos entryset and Helios leverset, from Emtex, are now available in **brushed stainless steel**. The material pairs perfectly with the modern design of the Davos and Helios – a minimalist aesthetic with a clean, hardy material.

The Davos is available in single cylinder and dummy while the Helios can be ordered for passage, privacy, and dummy. Consult the [Addenda](#) for more information including rosette styles, product codes, and pricing.

All literature, including this [addenda](#), can also be found on the Emtex website under Dealer Login.
