Re: Okeanito Inventory Status

Dear Zephyr Distribution and Retail Partners:

This notice is to inform you that we are in the process of upgrading the Okeanito. We are currently sold out of models COK-E42SX (42") and COK-E48SX (48").

Please bear with us during this upgrade process. Okeanito 42" and 48" models should be ready to ship by the end of this year but in the meantime we still have inventory of the 36" model, COK-E36SX. We sincerely appreciate your understanding and support during this transition process.

Thank You,

Dean A. Striler
