

PLUMBING

EDELMAN

A home is a series of choices, individually made. Some are spontaneous, some deliberate; in the end they are a reflection of you. From the grandest of front entries to intimate details - the curve of a lever, a smooth, round brass knob - your home is a world created piece by piece.

Edelman has exceptional products in every category, including plumbing, appliances, decorative hardware, windows and doors. Our showrooms provide the widest range of personal expression, without compromising quality or function.

Our people are our number one asset. Since 1953, we have worked with trade professionals and homeowners to make dream spaces a reality. We understand the unique challenges you face on every job.

The knowledgeable staff at Edelman is here to help. Our goal is to exceed your expectations - for service, for selection, for product quality and performance.
