

Hi Gretchen: we have just released our new RO130 and 230 with the much anticipated flush handle. Please open the attached PDF to see five sets of pictures. Simply scroll down to view once the file is open.

I think this should be a very strong seller for us and will satisfy the need of those who are looking for a low profile/ minimalist handle design. Currently, I believe we are the only company to offer such a concept. All other RO wall oven features remain the same. The price also remains the same as the 2012 model.

Please let me know if you have any questions.

Thom Tompkins , District Sales Manager
