Close-up view of the two shelves behind the dispenser area and the very small space required for the ice maker.

Introducing: BioFresh Plus™ see description below.

This unit is a first for Liebherr in the US, introducing Ice n' Water through the door. In addition we are introducing our patented BioFresh Plus™ technology. With its independent electronic control system, the temperature in three separate BioFresh Plus™ compartments can be adjusted from 28°F (best for storing fish) to 48°F (best for exotic fruits).

Recently, the European version of this unit was bestowed **the INTERIOR INNOVATION AWARD 2013** in the kitchen and household product category.
