

Hi All

1. With the non-plumbed ice makers in the HC-1540/41 and CS-1640 filtered must be used.
2. Some changes have been implemented to the CS-1400 in order to maintain price point and competitive advantage. Thus, LED lightning and Soft System closing door hinges have been added and the glass inner door was kept along with more stable door racks.

These featerues have been eliminated, however:

- Comfort GlassLine door racks instead of Premium GlassLine
- Comfort info panel for freezer drawere
- No foldable 2 piece glass shelf
- No Gallon Holder in door
- No rollers underneath the begetable bins.

Production changes have now taken effect and all models currently shipping are in line with these changes.

As a reminder ,if your customer needs service, these are the numbers they should call after 11:00 AM eastern time:

Liebherr [866-543-2437](tel:866-543-2437)
