

We are happy to introduce **ROMA**, a **NEW QUARTZ** color which resembles **CARRERA WHITE**.

While it is not an "exact match," it will be a **GREAT REPLACEMENT** for the discontinued Carrera White counter tops (which were very fragile and generated many after-sale issues). We strongly suggest you order a display counter top (at 50% **EXTRA DISCOUNT** until August 15) so your customers can appreciate the benefits and the color.

In this email you will find the Quartz Roma Price List. If you cannot view it here, you may download it from the link below:
