# Colours Colores Colori

The glaze for Alape basins and washstands can be manufactured in many hundreds of colours and shades, as well as either gloss or matt. They are permanently melted during the baking process. This means that they are absolutely lightfast – they are not to turn yellow or grey. The colours displayed represent a selection and are based on current bathroom trends.

— El vidriado de los lavabos y lavabos suspendidos de Alape se puede fabricar en cientos de colores y tonos así como en colores brillantes o mates. Durante el proceso de cocción se fusionan de modo definitivo. En consecuencia son absolutamente resistentes a la luz, es imposible que amarillean o se vuelvan grises. Los colores representados dan una visión general de las posibilidades de selección y se orientan a tendencias actuales en el baño.

— La polvere di vetro dei lavabi Alape può essere realizzata in centinaia di colori e sfumature, sia in versione lucida che opaca. Il processo di cottura fissa i colori per l'eternità. È per questo che rimangono assolutamente invariati nel tempo, senza mai ingiallire o ingrigire. I colori qui rappresentati corrispondono a una parte della gamma cromatica disponibile e si rifanno agli attuali trend per la zona bagno.
