

Changes to packing of Model 15F & 15W

Mustee has announced that they are permanently changing the mold configuration on the #15 laundry tub shelf from no holes to 3 holes.

The 3 holes are a center hole 1-1/8" in diameter and one 1" hole on either side of the center hole for a 4" center set faucet. The holes do not affect the integrity of the shelf and is easily covered by any faucet base and 20.600 faucet block.

This will be a running change over the next month.

Please contact Bev at howellb@preferredsales.com or 724-704-7603 with any questions.
