

New Total Sense™ Control Packages

Bundled packages for larger steam rooms requiring 2 generators

The following control packages should be ordered when two (2) Total Sense Steam Generators are to be installed for larger steam rooms. They include the additional components needed to accommodate the additional generator. These control packages will reduce distributor inventory requirements and make it easier for the consumer to select and purchase the controls they need.

TSC-450

Package DCP450 with TSC-450 control

Customers who purchase 2 Total Sense generators and one or more of the Total Sense Spa Options must also select the DCP-450 or DCP-450T Control Package.

Package includes:

- TSC-450 or TSC-450T Digital Control, equipped to link with mySteamist™ Mobile Application
- Two (2) 3199 Steamheads
- Two (2) 9070 Auto Drains (240 Volt)
- Two (2) 9020 Drain Pans
- 5158 Control Cable for Ganging TSG Steam Generators

Available in all designer finishes*

TSC-450T
