- 2 options offered: with and without WiFi
- Designed for you: offered in Bright Porcelain & Onyx Black
- Customizable: available overlays, downloadable background

Affordable Spa Bathroom Upgrades

powered by Warmup.

20 years ago, Warmup set out to become the world's most trusted provider of innovative underfloor heating solutions. Our strategy focuses on the creation of the best products, best service, best warranties and the harnessing of the most advanced information on product safety and capabilities through proprietary research & development.

The combination of heating wire with fluoropolymer coating (on the inner wires and the outer protective jacket) and thermostats are patented, trademark protected, designed and owned by Warmup.

We now occupy a world leading position in our field, selling more than 2 million systems in over 60 countries.

Electric Towel Warmers

Warmup's high quality stainless steel towel warmers are a cost-effective add-on to any bathroom. They are simple to install and not only do they warm and dry towels, but provide added heat to the room. Warmup Towel Warmers heat up to 145°F in under 3 minutes and connect straight to your light switch. Alternatively, combine them with floor heating and mirror defoggers on Warmup's 4iE® Smart WIFI Thermostat for full programming and home automation connectivity.

Floor Heating

Warmup floor heating is more than a bathroom luxury. For under \$500, it is a tested, proven and reliable heat source in any bathroom, replacing wall-heaters or baseboards. Our heated floors come with over 20 years of experience, R&D and 2 million applications worldwide. That's over 4 million warm feet!

Radiant heated floors are the healthiest way to heat a space. They provide complete design freedom and require zero maintenance. With our SafetyNET Guarantee and 30-Year product warranty, you can choose Warmup with confidence. Go ahead and Warmup your floor™

us@warmup.com | ca@warmup.com

Enjoy the comfort of toasty toes every morning, every day.

The Warmup StickyMat system is a series of small 3ft wide mats aimed for bathroom installations under tile & stone. StickyMats are dual-adhesive with double sided tape, as well as a pressure-sensitive adhesive on the entire mesh allowing for a fast set-up. They can be combined and patch-worked into the room to customize the coverage. Each mat is built with a dual-conductor cable with a single power cord to connect to the thermostat.

StickyMats are available in 3x3, 3x5, 3x6, 3x8 and 3x10ft.

- For fast installations in bathrooms
- Glass fiber-mesh with pressure sensitive adhesive
- Ultra-thin dual core heating cable
- 5 sizes for all layouts

The importance of the insulation.

Warmup coated Insulation Boards are an important element when installing underfloor heating. They provide the foundation to lay the heating system.

The insulation improves the response time and heat retention within the room, reducing energy consumption and carbon emissions.

4iE[®] Smart Thermostat

For Electric Radiant Heating and Baseboard applications

The 4iE[®] is quite simply the smartest line voltage thermostat on the market.

We designed it so you wouldn't have to use it. It can program itself using your smartphone location from the MyHeating[™] app and the occasional override.

The WiFi capability also allows you to vary your settings by zone and the 4iE[®] will recommend the best setting for each room based on usage.

Not only is radiant heating the most comfortable source of heat, it can now be the most affordable one as well.

Control your spa bathroom with the 4iE® Smart Thermostat
