Dehumidifiers are a great way to reduce humidity levels in the home. In hot, humid climates or seasons, removing humidity from your room's air can help you feel more comfortable. Typical damp spaces such as basements also benefit. And, reducing moisture levels can help lessen the growth of mold and mildew.

Everyday Ease of Use

- The LG dehumidifier features large, clear displays to easily check and control humidity levels.
- Maintenance is a no fuss affair with a convenient, and easy to see clear water bucket and tray handle.. The bucket is side mounted for added convenience and visibility.
- Also includes four smooth rolling wheels so it can be moved without breaking a sweat.

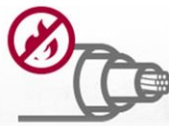

Designed With Safety In Mind

SAFETY STANDBY

23hr-Operation,
then 1 hr-Off to help
Prevent overheating
