

T. W. I. N. Sales Tool

- **T – Two** loads at the same time

Divide and conquer two loads at the same time with the Twin Wash system featuring the SideKick™ pedestal washer. Full size family loads in the main washer and smaller loads in the SideKick™.

- **W – Wash** smaller specialty loads

Use the SideKick™ pedestal washer to wash smaller specialty loads that you wouldn't normally wash with everyday items, i.e. delicates, hand washables, and workout wear.

Delicates

Hand Washables

Workout Wear

- **I – Independent** operation

The SideKick™ mounts underneath the front load washer (compatible with LG Front Load washers since 2009) and has it's own water lines, drain, and power.

Press Start
Remote can be
purchased separately

- **N – Never** wait!

Don't wait until the regular load of laundry is done to wash that smaller load, wash it at the same time! Or simply by itself. Whenever you need to clean, the SideKick™ is ready to conquer!

LG SideKick™

Remember P.I.C.K.

- **P** – **Premium Finish:**
Distinctive & Sophisticated. The darker hue compliments any kitchen cabinetry
- **I** – **Innovative Features:**
All appliances in this series feature LG's innovative features.
- **C** – **Easy-to-Clean Coating:**
The smooth satin finish is fingerprint and smudge resistant and cleans up easily with just a soft, dry cloth, no special chemicals needed.
- **K** – **Full Kitchen Suite Available:**
Wide assortment of appliances ready to complete your dream kitchen.

InstaView™ Door-in-Door®

ProBake Convection™
Even Baking • Every Rack • Every Time*

 **TrueSteam®**

ProB.A.K.E. TRAINING TOOL

- Pro – Style**

Styled with a Pro in mind. Sleek, angled controls put power and visibility at your fingertips without reaching. With large, metallic knobs, they feel as good in the hand as they look to the eye.

- B – Boil Faster**

LG's fastest boil! The UltraHeat™ 18.5k BTU's gas burner has been carefully shaped to concentrate heat for faster performance. And the UltraHeat™ 3,200 watt electric element provides our fastest electric boil.**

- A – Advanced, ProBake Convection™**

The heating elements have been moved from the bottom of the oven to the back wall with the dual speed fan system. This ensures more even heating across the racks. More consistent browning for that perfect bake or roast!

- K – King-Sized Capacity!**

*With some of the industry's largest capacities, LG's ProBake ranges have more room to handle almost any sized meal!***

- E – EasyClean® - Just 10 minutes!**

*LG's fastest oven cleaning, just a 10-minute cycle! Spray water, start EasyClean® and 10 minutes later, wipe clean!****

*As compared with other LG electric and gas models **Compared to leading brand single and double oven ranges. ***Heavy build-up may require additional manual effort or use of the full self-clean feature
