Shower Doors and Tub Doors Discontinuation

Following market trends, we are making substantial changes to our doors line-up in the next 12 months with a portfolio simplification, improvement and addition. We will be discontinuing multiple products nearing the end of their life cycle as of **June 1st, 2017**, and replacing them with exciting new products, which will be launched during the course of the year. Please make special note of the product discontinuation date since we will not be able to accommodate exceptions.

To further help you during this process, a SKU transition guide including recommended replacement products for discontinued models will be available as of May 1st. We will inform you as soon as this tool becomes available on the MAAX website (www.maax.com), in the Pros Corner's dedicated section on doors.

Please don't hesitate to contact your MAAX sales representative or the customer care department if you need help with shifting from any discontinued product to a new replacement model, or for any additional question you might have.
