

# 15" UNDER COUNTER ICE MACHINE WITH ARTICULATING HINGE

## Signature Features

### FULLY FLUSH, BUILT-IN DESIGN

Allows the ice machine to disappear into existing cabinets and integrate with other appliances.

### MAX ICE OPTION

A selectable option that increases ice production during times of heavy use. When selected, the temperature in the ice machine automatically adjusts to its lowest setting.

### CONCEALED CAPACITIVE TOUCH CONTROLS

Elegant controls, which are activated by a finger's touch and disappear to leave a seamless exterior when the door is closed.
