

15" UNDER COUNTER ICE MACHINE WITH ARTICULATING HINGE

Signature Features

FULLY FLUSH, BUILT-IN DESIGN

Allows the ice machine to disappear into existing cabinets and integrate with other appliances.

DRAIN PUMP

A system that drains excess water over a greater distance or an incline without the need to monitor or empty water manually.

MAX ICE OPTION

A selectable option that increases ice production during times of heavy use. When selected, the temperature in the ice machine automatically adjusts to its lowest setting.
