RE: Product and Carton Dimension Changes to 1/2 HP Food Waste Disposers

To Our Valued Customer:

With trends in kitchen sinks getting deeper in design, we find and have heard through research with consumers, consultants and contractors, reducing the disposer length is a true advantage to the consumer. As a result, at the end of April 2018 InSinkErator will be reducing the length of our most popular 1/2 HP disposers. More space under the kitchen sink is better for the homeowner. It is important to note that while we are offering a lower profile disposer, the rough-in dimensions will remain the same—picture below for reference. Model numbers and UPC codes will also remain the same. Pallet quantities will change from 90 units to 102 units. This will be a rolling change starting at the end of April 2018.

Previously, we launched the Evolution 1HP Low Profile unit, the Pro 1000LP, in response to the demand for shorter length disposers. By adjusting internal components in the 1/2HP disposers, including the popular InSinkErator Badger 5 disposer, the consumer will now have an additional 1.125 inches under the kitchen cabinet for storage.

Models Affected:

<i>Model Name</i>	<i>UPC</i>	<i>NEW Height</i>	<i>NEW Weight (Packaged)</i>	<i>NEW Pallet Quantity</i>
Badger 5	050375000426	11 1/2 inches	13.6 lbs.	102 units
Badger 5 w/cord	050375001737	11 1/2 inches	13.7 lbs.	102 units
E202	050375006640	11 1/2 inches	13.6 lbs.	102 units
E202 w/cord	050375006657	11 1/2 inches	13.7 lbs.	102 units
FWD 2	050375000808	11 1/2 inches	13.6 lbs.	102 units

Our goal is to continue to provide the highest quality and durable disposers to both the trade and to consumers. InSinkErator appreciates your continued support of our products. If you have any questions regarding the affected models, please contact your representative or InSinkErator Sales Manager.

Thank you!

Rob Grim
Sr. Vice President Global Sales
