Re: NIBCO® Lead-Free* Full Port Bronze Ball Valves 2-1/2" T/S/PC-585-80-LF and T/S/PC-585-66-LF Now Available

Effective April 30, 2018, NIBCO® lead-free* full port bronze ball valves in 2½" are available for sale. The T/S/PC-585-80-LF features silicon performance bronze alloy body, full port, and a 600 PSI Non-Shock Cold Working Pressure rating, which is the only one in its class in the market with this rating. The new valve is a great addition to our current bronze lead-free ball valve family. Certified to MSS SP-110, IAPMO/ANSI Z1157, NSF/ANSI-61-8 commercial hot 180°F and NSF/ANSI-372 certified. The valve is available in different end connections: Threaded (T-585-80-LF), Solder (S-585-80-LF), and Press (PC-585-80-LF), and with a Stainless Steel trim option: Threaded (T-585-66-LF), Solder (S-585-66-LF), and Press (PC-585-66-LF).

The new 2½" lead-free* bronze ball valves have been added to the NIBCO® Lead Free Valve price sheet, Press Valve price sheet, Valves specification sheets, and Lead Free digital catalog which can be found on www.nibco.com.

MP G	Material	Fig.#	Size	Material Description	List Price Ea.
