IMPORTANT NOTE ABOUT OUR IRON PATINAS:

Our Iron hardware is NOT RUST-PROOF. We provide an authentic wax coating only. We cannot guarantee against rust. Maintenance instructions are included with each order. All orders will need a rust-waiver signed by the dealer confirming this understanding. The patinas which hold up best against rust and which are easier to maintain are Hot Wax and Antique Rose. The plated finishes (OS, SN, AC) are likely to rust sooner and are more difficult to maintain.

All patinas are hand applied and will vary slightly from patina samples or display samples. This is due to aging of samples, and natural variations in patina which occur depending upon surface texture of the iron, temperature and humidity while applying the patina. This is considered to be a key part of the beauty and uniqueness of the hand forged iron product and not a defect.

All our patinas are living finishes and will age gracefully over time. How quickly they will age depends upon the conditions of use and maintenance.
