DROP-DOWN DOOR MICROWAVE OVEN

Included Bottom Trim - Redesigned

The bottom trim (shown below) has been redesigned and now will be included as standard with the Drop-Down Door Microwaves, beginning with serial number 15123348.

What is Changing?

The trims will not have a forward flaring flange and are now all black to better match the surrounding products. Use of the trim piece will be determined based on installation requirements.

Note: The trim will be included within packaging, and not affixed to the unit.

If you have any questions, please contact your Trevarrow, Inc. Regional Sales Manager or our Customer Service department.
