GLASS MOUNTED ACCESSORIES

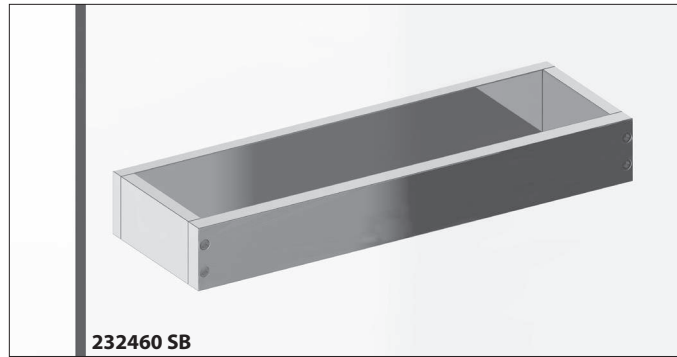

THE MOST EFFICIENT AND STYLISH WAY TO UTILIZE GLASS WALLS IN YOUR BATHROOM

Kartners Solid Back **SB** products are designed to be adhered to glass walls and partitions – ideal for bathroom renovations that are utilizing existing glass walls or shower doors. We suggest this product be installed by a professional glazier.

Product Features

- Can be installed on tempered glass – a great solution for additional storage
- No mounting brackets and a clean, solid and smooth finish on backside of product
- Installed using high viscosity UV adhesive (not supplied)
- Installation will need access to the backside of surface for UV light to cure adhesive
- You cannot mount back to back with this application – use our Shower Door Handles or Through Glass product for this application.

Limited wall space? No problem! Kartners Through Glass accessories **TG** are designed to be installed on glass walls and partitions in the bathroom. The holes for this product must be drilled prior to tempering the glass, and hole diameter is 3/8". A decorative cap on the opposite side completes this clean and efficient look.
