LIEBHERR

MONOLITH

Cooling Redefined

The next generation of home refrigeration is here. Introducing Monolith, a towering achievement in cooling technology from Liebherr. Monolith is the culmination of Liebherr's 60 years of refrigeration innovation and expertise. An impressive 84" from top to bottom, this monumental wonder of German engineering takes food preservation to a new level. With superior energy efficiency and food-saving advancements such as BioFresh-Plus, PowerCooling and our SmartDeviceBox, Monolith is a fusion of technical genius and practical ingenuity. Add Liebherr's exclusive InfinitySwipe touchscreen display and smartphone app, whisper-quiet operation and infinite finishes and size configurations to match your décor, and you can see why Monolith isn't just state-of-the-art. It's the new definition of cool.

Why Buy Monolith?

German Engineering: Our superior products offer premium quality, cutting edge design, and innovative features that best fit your lifestyle. The use of high quality materials, perfectly detailed finishes, and elite cooling components are combined with the latest production processes, resulting in an outstanding cooling product.

Energy Star: The entire line of North American Liebherr appliances meet or exceed ENERGY STAR® rating requirements, greatly reducing greenhouse emissions and energy costs.

SuperQuiet: Noise levels are kept to a minimum thanks to virtually silent, speed-controlled, and sound absorbing compressors. Alongside a low noise cooling circuit, these features ensure exact performance, energy efficiency, and SuperQuiet operation.

BioFresh-Plus: Liebherr's BioFresh technology guarantees the perfect climate for superior, long-lasting food freshness. In addition to two BioFresh drawers, the third Monolith refrigerator drawer can be set as BioFresh-Plus, lowering temperatures down to 28° F, ideal for storing fresh fish and seafood.

SmartDevice: Monolith comes with a SmartDeviceBox which can be controlled via a smartphone or tablet, activating settings and features while on the go. SmartDevice can also help you become a better chef by using internal cameras to tell you what items you'll need for a recipe, and voice recognition to order what you're missing.

InfinitySwipe: Monolith's intuitive electronic touch-control panel features a full-color 2.4-inch touch & swipe screen that's bright, clean, and wonderfully user-friendly. You'll barely have to lift a finger to control every function.

InfinityLight: Monolith's seamlessly integrated LED side-wall lighting casts a beautiful and even glow that can be adjusted according to taste, including a soft brightening effect upon opening the doors, and a pleasing night dimming feature. InfinityLight doesn't just add drama and flair, it also emits less heat, preserving food quality.

SuperCool / SuperFrost: Simply quick chill or freeze just-bought groceries to preserve optimum food freshness, while sealing in flavors and maintaining essential vitamins and minerals.

SoftSystem: Doors close automatically and gently thanks to our SoftSystem technology, which eliminates slamming even when shelves are fully loaded. Depending on which size Monolith you choose, the door hinges are rated for up to 79 pounds.

A long, rectangular kitchen island with a light-colored, textured countertop and a dark, minimalist cabinet base. The island features a stainless steel faucet and a sink. Below the countertop, there is an open shelving area containing a silver pitcher and two glasses. On the countertop, there are some plates and a small brown cup. The island is positioned in front of a large window that offers a view of a city skyline.

A dark, floating shelf system mounted on a light-colored, textured wall. The shelves hold various items, including a white glass jar, a black bowl, and a small coffee machine. The shelves are positioned above a dark countertop.

A brown, woven basket filled with fresh green vegetables, including leafy greens and broccoli. A newspaper is tucked into the basket. The basket is placed on a light-colored wooden floor in the foreground.
