

HYDRO SYSTEMS

family owned and operated since 1978

HydrOzone

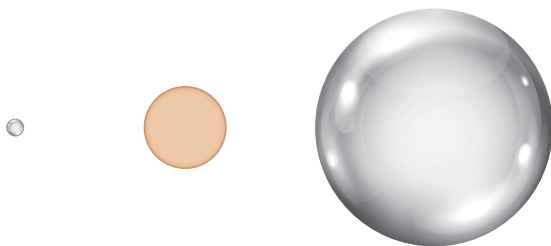

- Standard on all Designer, Metro and STON tubs with a system.
- Value added feature introduces natural ozone to immediately begin sanitizing your bath water while your system is operating.
- Ozone is NATURAL, it reverts to oxygen when its work is done, leaving no by-products in the water
- Ozone is SAFE, made naturally from the oxygen we breathe
- Ozone is EFFECTIVE, 200 times stronger than bleach
- Ozone is AUTOMATICALLY introduced to the bath water when the pump is turned on
- Ozone has been PROVEN, used for over 100 years to sanitize municipal water. Almost all bottled water is treated with ozone.
- The HydrOzone system will operate MAINTENANCE FREE for over 9,000 one-hour bathing sessions
- It's like bathing in bottled water.
- To deplete HydrOzone it would have to run one hour a day, seven days a week for 25 years

Hydro Fusion

- Available on drop in and alcove including soaking tubs, thermal air tubs, whirlpool tubs and combo units.
- Silent system that can be set to your specified temperature and the intuitive system keeps your bathwater exactly the temperature you want it.
- Maintains the ideal temperature without constantly having to add hot water
- Circulates the water through the pump that heats it
- System operates with minimal water movement

Lacey with Hydro Fusion.

Micro bubble
0.01 mm

Skin pore
0.05 mm

Typical bubble
2 mm

Hydro Indulge

- Micro bubble therapy, bubbles are 10 microns in diameter making them smaller than the pores on your skin
- Indulge is a highly innovative bathing therapy that infuses water with millions of micro sized, oxygen rich molecules.
- Using for 20 minutes a day will benefit you by:
 - Helps to exfoliate, cleanse, heal and restore skin to look and feel younger
 - Helps to improve collagen production and reduce fine lines and wrinkles to look younger
 - Helps your mood
 - Can help with certain skin disorders such as psoriasis
