

# PARABOLA™

*Designed, engineered and assembled in Canada*

The collection draws inspiration from a parabolic surface - the only surface that allows focusing of multiple elements into a single point. The result is an innovative yet simple aesthetic that highlights the collection's geometry through elegant curves, creating a unique profile and bathroom focal point that maximizes the reflection of light in the surrounding environment. Each platform offers an effortlessly superior experience and look, seamlessly unified throughout the collection with one key feature, the parabola.

## Handle Options

*Metal Handle*
