Ordering Suspension **REVISION UPDATE: New Additions and Suspension Removals**

TOTO is currently experiencing a supply chain interruption to a select number of items due to the Coronavirus Disease 2019.

TOTO has decided to suspend receiving new purchase orders for the items listed below until we can assure that the supply chain of these items is back online.

New Additions: Page 1- Both Component and Kit items have been added

Suspension Removals: Page 2-Reflects all SKU numbers that are now available for order

For the products that are currently stocked and/or installed, there is no concern for the quality of the product. The supply chain interruption is only due to a delay in production due to the factories being closed. We apologize in advance for the impact that this may have on your business. We appreciate your patience. We will continue to monitor the situation and keep you apprised of any changes and/or when we can resume receipt of new purchase orders and provide job quote pricing for these items.
