Shower Sets

Now offering all-inclusive shower sets that make building the perfect shower faster and easier.

We've done all the work for easy specification that is more economical.

To design a bathroom is to be part of an experience that is full of excitement and inspiration. On the other hand, the process of creating a shower system from scratch can also make things a little overwhelming. That's why the shower experts at hansgrohe have combined some of our most popular products to develop a collection of all-inclusive shower sets. With this convenient and enjoyable new offering, building the perfect bathroom is now simplified.

Hansgrohe shower sets come all-in-one, providing everything needed for installation. The experts have done all of the work to offer complete shower systems that are pleasant in form and function. This saves time, energy and cost spent pairing products piece-by-piece allowing specification with ease, comfort and affordability. Just choose a set, then pair it with your favorite hansgrohe faucet and accessories. It's that simple.

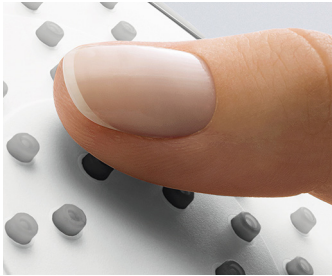

Croma Select E Showerhead 180
2-Jet Shower Set, 2.0 GPM

Part No. 04911000

A box load of features.

Each shower set by hansgrohe offers its own unique bundle of products with pleasurable features, allowing the transformation of the ordinary shower into a haven of relaxation without having to think about the details.

QuickClean

All showerheads and handshowers come equipped with the QuickClean feature, an antilimescale function. The silicone spray channels enable you to simply wipe away deposits with your hand.

AirPower Technology

Products featuring AirPower Technology infuse each drop of water with air. This delivers an invigorating high performance jet.

Select Technology

The Select button give you intuitive water control, letting you control your spray mode at the touch of a button.

Easy Shower Control

The pressure balanced shower trim allows control of water flow, volume, and temperature with a single handle.

Quick Outlet Diversion

The pressure balanced shower trim with diverter allows the top handle to divert water from the first outlet to the second outlet (showerhead to tub spout), and the bottom handle controls water flow, volume, and temperature.

Consistent Water Temperature

A thermostatic trim allows you to set your preferred water temperature and have a perfect shower every time. The top handle controls on/off, water volume, and diverts water between outlets. The bottom handle controls water temperature.

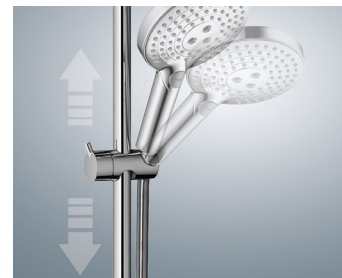

Flexible Hose

The 63-inch hose length guarantees freedom of movement and thus a pleasant shower experience.

Attractive Finish Options

Chrome - crisp, modern
Brushed Nickel - elegant, distinguished

Customize Your Shower

Wallbars allow you to easily adjust the removable handshower to your individual height, addressing the needs of multiple users and enhancing your shower experience.
