MAST486GGASBIE

PROF366GASGIT

PROF304GASART

MAST244GASNEE

48" ALL-GAS RANGE

- Stainless steel electric griddle and cover (1,100W)
- 2 x 19,000 BTU power burners with dual ring flame **that boil water in under 6 minutes - Best In Class**
- 4.7 cu ft gas main oven with dual horizontal convection fans for even baking and roasting on 7 shelf levels (including 3 wire shelves, baking tray with grill trivet, 1 set of telescopic glides)
- 2.4 cu ft auxiliary gas oven perfect for smaller dishes and for warming. Both ovens include smooth telescopic glides for the oven shelves and soft-close doors.
- Main: Bake element 3, 500-14,000 BTU - Main: Broiler element 9,000 BTU - Aux: Bake element 2,400-7,000 BTU
- Dimensions: **W** 48" x **H** 35 3/4" - 37 1/2" (adjustable legs) x **D** 25 3/16" (not including handle)

36" ALL-GAS RANGE

- 2 x 19,000 BTU power burners with dual ring flame **that boil water in under 6 minutes - Best In Class**
- 5.9 cu ft gas oven with dual horizontal convection fans for even baking and roasting on 7 shelf levels (including 2 wire shelves, baking tray with grill trivet, 1 set of telescopic glides)
- Bake element 4,100-17,000 BTU - Broiler element 11,000 BTU
- Dimensions: **W** 36" x **H** 35 3/4" - 37 1/2" (adjustable legs) x **D** 25 3/16" (not including handle)

30" ALL-GAS RANGE

- 1 x 19,000 BTU power burner with dual ring flame **delivering fastest time-to-boil in class**
- 4.7 cu ft gas oven with dual horizontal convection fans for even baking and roasting on 7 shelf levels (including 2 wire shelves, baking tray with grill trivet, 1 set of telescopic glides)
- Bake element 3,500-14,000 BTU - Broiler element 9,000 BTU
- Dimensions: **W** 30" x **H** 35 3/4" - 37 1/2" (adjustable legs) x **D** 25 3/16" (not including handle)

24" ALL-GAS RANGE

- 1 x 19,000 BTU power burner with dual ring flame **delivering fastest time-to-boil in class**
- 2.4 cu ft gas oven with single fan convection including 2 oven racks and a roasting pan with grill trivet.
- Bottom flap storage compartment
- Dimensions: **W** 23 13/16" x **H** 35 1/2" - 37 3/4" (adjustable legs) x **D** 25 3/16" (not including handle)

ALL-GAS RANGE ADDITIONAL FEATURES

- Counter-deep maintop for flush installation with kitchen countertops and cabinets
- Soft-close oven door with edge-to-edge tempered glass
- Electric ignition with thermocouple safety device for gas burners
- Extra-large high-power infrared gas broiler (except 24" model)
- Elegant temperature gauge for control of oven temperature during pre-heating and baking
- Food temperature probe for accurate roasting and baking (T models only)
- Smooth-glide telescopic racks (except 24" model) (T models only)
- Fingerprint free stainless steel
- Included accessories: Wok ring (T models only), Simmer ring, 1" stainless steel island trim
- Ranges are available in NG (standard) and an LP conversion kit is included with every range.

Bertazzoni built-in refrigerators are designed, engineered and made in Italy with the highest grade materials and components. The proprietary 'lift & swing' door hinge system makes them the ideal choice for true finish installation as a single refrigerator, or side-by-side. These refrigerators integrate seamlessly with all other Bertazzoni appliances into style-harmonized suites for a true, high-performing kitchen.

BUILT-IN COLUMNS - REFRIGERATOR - FREEZER - WINE CELLAR

REFRIGERATOR - These premium built-in column refrigerators are masterpieces of Bertazzoni design and technology. Their stylish stainless-steel front doors reflect close attention to detail and high-quality materials, inside and out.

Aluminum and glass surfaces make it easier to maintain hygiene throughout.

The side-mounted evaporator design offers category-leading depth and storage capacity.

Top and lateral LED lighting gives you perfect all around visibility.

Easy to use, the touch-control user interface offers precision temperature control to extend food preservation.

A variable speed compressor ensures accurate temperature control and energy efficiency.

Efficiency is key: lateral airflow creates a cold air curtain to maintain a consistent temperature even when door is opened frequently. Rapid cooling is available to optimize the temperature when large amounts of food are loaded, after trips to the grocery store.

FREEZER - Conveniently preserve food for an extended time in dry air conditions, avoid freezer burn and frost build-up.

Enjoy ample and flexible food storage thanks to Bertazzoni's columns design featuring the most usable interior depth in the category.

Preserve the nutrients, texture and taste of all fresh and packaged foods with state-of-the-art sensor managed temperature zones combined with a variable speed compressor.

Ensure optimal food preservation with metal and glass material refrigeration bins, crisper's, and shelves for scent & aroma neutral storage

Serve premium ice and choose the actual ice cube size with the digitally-controlled and filtered automatic ice maker.

Access all temperature settings through the intuitive digital touch-control interface, with fast-freeze and bottle chill options.

Maintain the correct temperature in the freezer when opening the door for reloading, thanks to the unique lateral side-to-side airflow circulation.

Create a truly flush front alignment with the adjacent cabinets and minimal clearance with the exclusive "lift & swing" door hinge.

WINE CELLAR - Designed to keep your wine at its best, it offers a high level of control with 2 temperature zones for red and white wine that cool between 40° F and 65° F. The unique side-to-side airflow circulation maintains the correct temperature in each zone when opening the door for reloading.

Wine enthusiasts suggest red wine be served at 55° - 65°F and white wine be served at 45° - 55°F. All wines continue to develop flavor as they age. Proper long-term storage temperature is 55°F.

The intuitive digital touch-control interface let you select the perfect temperature range and control the humidity.

A red wine aging function lets you lay down the bottles that will be kept in the best condition possible.

Preserve the character of your favorite wine and champagne as a result of zone dedicated evaporators, cork protecting humidity controls, a tinted triple glass UV light-shielding glass window and vibration-free variable speed compressor.

KOTR24MXE	24" Over the Range Microwave Hood	\$ 599
-----------	-----------------------------------	--------

In the Emilia Romagna region of Northern Italy lies the quaint town of Guastalla, near Parma, where one family company combines the two great traditions of the area – culinary craft and engineering skill. For over 135 years, the Bertazzoni family has embraced the superb food heritage of the region – fresh delectable products such as prosciutto di Parma, salami and mortadella, varied and delicious pastas, Parmesan cheese and balsamic vinegar – and produced cooking equipment of the highest quality that is consistent with the fine engineering heritage of the area, known for world famous sports cars and racing motorbikes, machine tools, electrical gear and agricultural equipment.

This is why people around the world who know how to cook use Bertazzoni ranges, cooktops, and ovens, all built with passion and precision by people who know about cooking. Cook beautifully with a Bertazzoni.

BERTAZZONI WARRANTY & SERVICE

BERTAZZONI TOLL FREE SERVICE NUMBER: 866 905 0010

Warranty

Please kindly register on our web site www.bertazzoni.com to validate your new product warranty and help us to assist you better in case of any inconvenience.

TWO YEAR LIMITED WARRANTY

The warranties provided by Bertazzoni Spa in this statement apply exclusively to Bertazzoni appliances and accessories sold as new products to the original owner by a Bertazzoni authorized distributor, retailer, dealer or service center and installed in the United States and Canada. The warranties provided in this statement are not transferable and have validity from the date of installation.

COVERAGE INFORMATION

Bertazzoni SpA will repair or replace any component part which fails or proves defective due to materials and/or workmanship within 2 years from the date of installation and under conditions of normal residential use. Repair or replacement will be free of charge, including labor at standard rates and shipping expenses. Repair service must be performed by a Bertazzoni Authorized Service Center during normal working hours.

FIVE YEAR PARTS AND LABOR WARRANTY FOR SEALED SYSTEM

After year 2 through year 5, Bertazzoni provides parts & labor coverage for sealed system interventions only.

COSMETIC WARRANTY

Bertazzoni will cover parts showing cosmetic defects in material and workmanship for a period of thirty (30) days from date of installation of the unit. This coverage will include scratches, stains, surface imperfections on stainless steel, paint and porcelain, with the exclusion of slight differences in color due to materials and painting/enameling technologies. Exclusions are labor costs, B stock items, out-of-box appliances and display units.

HOW TO OBTAIN SERVICE

To obtain warranty service please contact Bertazzoni Customer Service at the contact information below and make sure to provide model number, serial number and date of purchase. Failure to provide complete product data and homeowner contact information may result in delayed service.

In the US <https://us.bertazzoni.com/care-service>

Use the drop down menu (top right 3 lines, and click on customer care to register your warranty/

Phone: ENGLISH 866 905 0010

Save proof of original purchase or of original installation to establish warranty period. Copy of the product serial tag is affixed to the back cover of the instruction manual.

WHAT IS NOT COVERED

1. The product used in any commercial/business application.
2. Repair service provided by other than a Bertazzoni authorized service agent.
3. Damage or repair service to correct service provided by an unauthorized agency or the use of unauthorized parts.
4. Installation not in accordance with local electrical codes or plumbing codes.
5. Defects or damage due to improper storage of the product.
6. Defects or damage or missing parts on products sold out of the original factory packaging or from displays.
7. Service calls or repairs to correct the installation of the product and/or related accessories.
8. Service calls to connect, convert or otherwise repair the electrical wiring / gas line / water line to properly use the product.
9. Service calls to provide instructions on the use of a Bertazzoni product.
10. Repair service due to product usage in manner other than what is normal and customary for home use.
11. Replacement of wear and tear parts
12. Replacement of glasses and light bulbs if they are claimed to have failed later than 30 days after installation and in no case later than 4 months after date of purchase.
13. Defects and damages arising from accident, alteration, misuse, abuse, improper installation.
14. Defects and damages arising from transportation of the product to the home of the owner.
15. Defects and damage arising from external forces beyond the control of Bertazzoni SpA such as fire, flood, earthquakes and other acts of God.

In case the product will be installed in a remote area, where certified trained technicians are not reasonably available, the customer will be responsible for the transportation costs for the delivery of the product to the nearest authorized service center or for the displacement costs of a certified trained technician.

Bertazzoni does not assume any responsibility for incidental or consequential damages.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state or province to province
