

Dear Valued Partners,

Due to a variety of factors, U-Line has made the decision to implement a price increase effective April 1st, 2021 on their products.

The price increase will not impact the dealer or retail cost of products released during the 2nd half of last year including the new 1 Class series.

We have worked to keep dealer's margin neutral during this price increase.

U-Line maintains the broadest line of under-counter solutions in the market including the most integration options.

We are committed in maintaining great consumer prices with meaningful margins. The minimal price increase maintains strong consumer pricing and the well deserved margins for our dealers.

Thank you for your partnership and support,

Chris Gorra
