## IPP9 Series *iQ*

LEAD: 5/2 WARRANTY

- Available in brushed stainless steel.
- Four 25 watt halogen bulbs included.
- Choice of quiet iQ12 internal blower with 1500 MAX Blower CFM or external blower options.
- iQ blowers with GPS technology provide up to 2X quieter operation, 30% faster removal of smoke and 22X more energy efficiency.
- Three-speed plus boost, electronic pushbutton control with speed display; optional remote control (ACR3).
- Control features delay-off and filter clean reminder.
- Hi-Flow™ baffle filters provide excellent ventilation efficiency.
- Heat Sentry™ detects excessive heat and adjusts blower to high automatically.
- Telescopic flue accommodates ceiling heights 8' to 9'.
- Optional flue extension for 10' to 11' ceiling.
- Uses 10" round duct.
- Designed to work with optional universal make-up air dampers. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

\* Limit CFM to 300 or 400 CFM with CRT (Code Ready Technology) to meet MUA Codes.

# Island Hoods

## ICB3 Series

- Available in brushed stainless steel.
- 30" and 36" wide.
- Internal blower with 650 MAX Blower CFM.
- 1.2 sones at low speed.
- 8" vertical discharge.
- Suitable for 8' to 9' high ceilings.
- PURLED™ light system: boosts light output by 25%, distributes light six times better and improves energy efficiency by 88% (four light settings).
- Hybrid filter issued from the combination of two filtering technologies, designed to capture 28% more grease.
- Interchangeable glass panels: your choice of 8 trendy colors to help you personalize your kitchen décor.
- Limit CFM to 300 CFM with CRT (Code Ready Technology) to meet MUA Codes.

\* Ispira Island hood requires 2 glass panels for operation – front and back. Hood (Without Glass) comes without interchangeable color option panels to help you personalize your kitchen décor. Complete your hood by selecting glass panel color options (purchase separately) available.

# Chimney Hoods

## WTT32 Series

- Available in brushed stainless steel.
- 50 watt halogen bulbs (included) provide brilliant lighting; two on the 30" and 36"; three on the 42" and 48" widths.
- Powerful internal blowers with choice of 400 MAX Blower CFM or 675 MAX Blower CFM (30", 36" or 42") or 1275 MAX Blower CFM (48" only) included for a simple "out-of-the-box" solution.
- Four-speed electronic pushbutton control for convenient range of ventilation choices.
- Five minute delay off keeps hood running after cooking to clear smoke and odors.
- Filter clean reminder ensures filters can be cleaned regularly and grease is captured at optimum levels.
- Dishwasher safe stainless steel mesh filters ensure reliable performance (two on 30", 36" and 42"; three on 48").
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Non-duct options for 30", 36" and 42" widths only.
- Telescopic flue accommodates ceiling heights from 8' to 9'.
- Optional flue extension for 10' ceilings.
- Uses 8" round duct with internal blower 675 MAX blower CFM and 10" round with internal blower 1275 MAX blower CFM.
- Designed to work with optional MD6T, MD8T and MD10T make-up air dampers. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

## WC34 Series

LIMITED  
5/2  
WARRANTY

- Available in brushed stainless steel.
- Two LED lights provide bright, clean, energy efficient light over the cooktop.
- Choice of quiet internal iQ6 with 800 MAX Blower CFM or external blower options.
- Four-speed electronic control features delay-off and filter clean reminder.
- Quick release, dishwasher safe stainless steel grease filters.
- Heat Sentry™ detects excessive heat and adjusts blower to high automatically.
- Telescopic flue accommodates ceiling heights 8' to 9'.
- Optional flue extension for 10' to 11' ceiling.
- Uses 8" round duct.
- Designed to work with optional universal make-up air dampers. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

## WBF4I Series

- Available in brushed stainless steel.
- Telescopic flue for 7'-8" to 9' ceilings.
- Flues have vent openings to allow non-ducted operation. Reversible design allows openings to be hidden in most ducted applications.
- Non-duct option available. Non-duct filter kit purchased separately.
- Three-speed electronic pushbutton controls with lighted LCD screen.
- Up to 60 minute time-delay shut-off feature.
- Quick release aluminum mesh, dishwasher-safe filters.
- Quiet, powerful 400 CFM blower.
- Designed to work with optional universal make-up air damper MD6TU and MD8TU.

\* Hood (Without Glass) requires a front glass panel for operation. Hood comes without interchangeable color option front panel to help you personalize your kitchen décor. Complete your hood by selecting a front glass panel color options (purchase separately) available.

# Professional Style Hoods

## WP29 Series

- Professional-style with contemporary flair, 18" wall mounted design; 304 stainless steel welded seamless construction.
- 50 watt halogen lighting with variable level rotary control and last setting memory (4 bulbs 30" – 42", 6 bulbs 48" – 60") (included).
- Choice of 13 blower options: 5 internal, the quiet iQ6 with 800 Max Blower CFM and iQ12 with 1500 MAX Blower CFM or standard high pressure P3, P6 and P12 or 8 external blowers up to 1650 MAX Blower CFM.
- iQ blowers with GPS technology provide up to 2X quieter operation, 30% faster removal of smoke and 22X more energy efficiency.
- Hi-Flow™ baffle filters provide excellent ventilation efficiency.
- Variable speed control with last setting memory.
- Heat Sentry™ detects excessive heat and adjusts blower to high automatically.
- Optional decorative soffit flue adds 12" to the top height of hood.
- Uses 8" round (iQ6, P3, P6) or 10" round (iQ12, P12) duct with internal blowers, 10" round with external blowers, damper adapter included. Allows horizontal and vertical exhaust.
- Designed to work with optional universal make-up air dampers. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

# Outdoor Hoods

## WTD9M Series

LIMITED  
5/2  
WARRANTY

- Chimney style designed for outdoor patios and lanais.
- Constructed of corrosion-resistant brushed stainless steel.
- 36", 42" and 48" widths.
- 30" depth.
- Internal blower with 1300 MAX Blower CFM, must be purchased separately.
- Two halogen bulbs.
- Stainless steel baffle filters.
- Variable speed rotary control.
- Heat Sentry™ detects excessive heat and adjusts blower to high automatically.
- Ducted installation uses 10" round duct.
- Three choices of flue extensions 8', 9', 10' to 12' (order separately).

\* Hood (Without Glass) requires a front glass panel for operation. Hood comes without interchangeable color option front panel to help you personalize your kitchen décor. Complete your hood by selecting a front glass panel color options (purchase separately) available.

# Built-In Hoods

## D49M Series

Stainless Steel Finish

Black Stainless Steel

- Chimney raises to 18" at the touch of a button.
- Choice of quiet Flex Blower System with 650 MAX Blower CFM or external blower options sold separately.
- Provided in stainless steel or black stainless steel finish.
- LED lighting produces bright, clean light using minimal energy and has an extra long life span, so lights may never need replacement.
- Four-speed electronic controls include 10-minute delay-off, filter clean reminder and Heat Sentry™ to provide convenient operation.
- Optional ACRD remote control button for convenient up/down operation.
- Hidden mesh grease filters are easily removed for cleaning by removal of the front panel.
- Optional end cap extension adds 1" to width for 31", 37" and 49" applications for the perfect fit, sold separately (includes left handed and right handed replacement end caps).
- Optional decorative range trim kit for use with free-standing range applications, sold separately.
- Cooktop trim seal kit recommended for use with gas cooktops, sold separately.
- Will work with optional universal make-up dampers. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

# Built-In Hoods

## P195P Series

- Constructed of brushed standard grade stainless steel.
- Perimeter induction maximizes the flow at the hood edge along with giving it a clean filterless look.
- Two 20 watt halogen bulbs included.
- Choice of an internal blower with 650 MAX Blower CFM (P195P1M52 or P195PM170) or 1300 MAX Blower CFM (P195P2M70).
- Optional recirculating filters for non-ducted operation (only for P1951).
- Four-speed, electronic pushbutton controls with digital display with delay off and filter clean reminder. Optional remote control (ACR3).
- Heat Sentry™ detects excessive heat and adjusts blower to high automatically.
- Optional stainless steel liners to protect cabinetry for standard widths 30", 36" and 48", provides adjustable depth from 17.5" to 20.5".
- Ducted installation uses 6" round for the 1M models and 8" round for the 2M model.
- Designed to work with optional make-up air dampers MD6T, MD8T and MD10T. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

## P195ES Series

- Available in brushed stainless steel.
- Flush under cabinet design fits flush to custom cabinet or can be used with optional BEST liners to protect cabinetry.
- ENERGY STAR® rated for optimum energy savings in ducted applications.
- Two 13 watt fluorescent bulbs provide economical, energy-saving lighting (included).
- Efficient internal blower for quiet, dependable operation.
  - 370 CFM, 5.0 Sones (0.3 Sones normal) on P195ES70SB
- Aluminum mesh filters effectively capture grease and are dishwasher-safe.
- Variable three-speed slider control for convenient range of ventilation choices.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Recirculation filters available for installations where ducting outdoors is not possible. Please note, recirculation installations will not meet ENERGY STAR® requirements.
- Uses 8" duct on P195ES70SB. Includes backdraft damper/adaptor.
- Will work with optional universal make-up dampers. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

# Built-In Hoods

## PK22 Series

- Available in brushed stainless steel.
- Under cabinet design fits flush to custom cabinet or can be used with optional BEST liners to protect cabinetry.
- Two 50 watt halogen bulbs included; three bulbs on 45".
- Powerful internal iQ12 Blower System™ with 1500 MAX Blower CFM, driven by Guaranteed Performance System (GPS) Technology runs up to 2X quieter, clears smoke and odors up to 30% faster and is up to 22X more energy efficient than competitive blowers in its class.
- External (EX) versions for a choice exterior or in-line blowers from 300 to 1650 MAX Blower CFM.
- Hybrid stainless steel baffle and aluminum mesh filters provide quieter operation and capture grease more effectively than typical baffle filters; dishwasher safe.
- Four-speed LED pushbutton control for convenient range of ventilation choices. Optional remote control (ACR3).
- 10 minute delay-off keeps hood running after cooking to clear smoke and odors.
- Filter clean reminder ensures filters can be cleaned regularly and grease is captured at optimum levels.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Uses 10" duct. Optional 8" reducer (472). Note: May not calibrate when using reducer.
- Designed to work with optional MD6TU, MD8TU and MD10TU universal make-up air dampers. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

# Built-In Hoods

## U102 Series

- Available in brushed stainless steel.
- Modern slim design.
- Two 20 watt halogen bulbs included.
- Dishwasher-safe stainless steel and aluminum filter.
- Provides effective ventilation in an ultra-compact package — 12" retracted and 18" extended.
- Quiet, efficient internal blower with 575 MAX Blower CFM.
- 10-minute time-delay shut-off feature and reminder indicator for filter maintenance.
- Heat Sentry™ detects excessive heat and adjusts speed to high automatically.
- Not recommended for use with gas or electric grills.
- Optional non-ducted filter kit for recirculating operation (ductwork required).
- Uses 8" round duct, includes back-draft damper/adaptor.
- Designed to work with optional universal make-up air dampers. Fresh air wall caps are required for make-up air dampers (see pages 26 and 27).

## Accessories

### Dampers

Model No.	Description	List Price/ SRP‡	MAP
421	10" damper	\$41.00	\$37.00

### Universal/Automatic Make-Up Air Dampers

Model No.	Description	List Price/ SRP‡	MAP
MD6S	6" make-up air slave damper (damper only)	\$156.00	\$141.00
MD8S	8" make-up air slave damper (damper only)	\$171.00	\$154.00
MD10S	10" make-up air slave damper (damper only)	\$264.00	\$238.00
MD6T	6" automatic make-up air damper	\$152.00	\$137.00
MD8T	8" automatic make-up air damper	\$168.00	\$152.00
MD10T	10" automatic make-up air damper	\$276.00	\$249.00
MD6TU	6" universal automatic make-up air damper with pressure sensor kit	\$217.00	\$196.00
MD8TU	8" universal automatic make-up air damper with pressure sensor kit	\$238.00	\$215.00
MD10TU	10" universal automatic make-up air damper with pressure sensor kit	\$314.00	\$283.00

Fresh air wall caps are required for make-up air dampers. See 610FA, 641FA and 643FA in the Roof and Wall Caps section.

### Light Bulbs

Model No.	Description	List Price/ SRP‡	MAP
GU10	Light Bulbs (box of 10)	\$16.00	\$15.00

### ARP CFM Kit

Model No.	Description	List Price/ SRP‡	MAP
ARP6	CFM Reducer Kit	\$41.00	\$37.00
ARP8	CFM Reducer Kit	\$44.00	\$40.00
ARP310	CFM Reducer Kit	\$41.00	\$37.00
