

April 30, 2021

To Our Valued Customers,

Throughout the challenges of the past year, the Brizo® team has remained focused on providing you and your discerning customers with an expanding portfolio of luxury products for the kitchen and bath. We work diligently to control costs while crafting quality products. Despite our best efforts, our industry has faced tremendous pressures, especially related to supply chain, transportation, and raw materials. As a result, we are announcing that a **strategic price increase for Brizo faucets, fittings, accessories and repair parts will go into effect July 11, 2021** with an overall weighted average increase of +4.3%.

Updated electronic price files will be available on May 10 through your local Brizo product sales representative and on the brizo.com website in the Professional Resources area.

The revised pricing will be reflected on the Brizo website and in our Brizo digital price book beginning July 11. It will also be reflected in the 2021-2022 Brizo Price Book, which will be available in August 2021.

Thank you for your continued support of the Brizo brand. We value your business and appreciate your understanding as we address the many challenges in our industry. Our team is dedicated to helping you grow your luxury business with our thoughtfully designed, meticulously crafted products backed by unparalleled service and support for you and your customers.

Please contact your local Brizo product sales representative if you have any questions.

Sincerely,

Jon Dartt

Vice President, Trade
