

WhisperFit® DC

VENTILATION FAN

DATE: May 10, 2021

TO: Panasonic IAQ Division Field Sales

FROM: Yarixa Sanchez, Product Manager

SUBJECT: NEW! WhisperFit® DC

Product Launch: June 2021 – *See Inventory Availability Section for Details*

INTRODUCTION:

Panasonic provides the most powerful and enhanced products in our Industry. We are pleased to announce the new and improved **WhisperFit® DC** models. Customer feedback and market research showed that it was time to introduce a premium product to the remodel market. While the old AC model was a market leader, we are stepping up the game with this new series. Now, let's learn a little more about what has been improved.

KEY FEATURES:

- NEW! Revolutionary ECM motor with SmartFlow™ Technology ensures optimal CFM output
- Built-in Pick-A-Flow™ airflow selector allows you to select your required airflow of 50, 80, or 110 CFM with a simple flip of a switch
- NEW! Condensation Sensor model (FV-0511VFC1) provides hands-free operation and automatic moisture control
- Lighted models incorporate one 10W dimmable LED chip panel with <1W LED night light for warm, long-life energy efficient illumination (night light must be wired separately)
- NEW! Adjustable Color Temperature model (FV-0511VFL1K) features three color temperatures: 3000K, 4000K and 5000K, which allows homeowners to match the light setting in the room
- Single-hinged Flex-Z Fast® bracket provides flexible, fast and easy installation
- NEW! Pre-installed alignment guides help guide adaptor assembly into place during installation for a tight precision fit
- NEW! Temporary clip molded into casing holds fan in place while installer fastens fan to can safely
- Can be used to comply with ASHRAE 62.2, LEED, IAP and California Title 24

DESCRIPTION & MODEL INFORMATION:

All models are UL listed for tub/shower enclosure when GFCI protected, and UL listed for use with the Panasonic Ceiling Radiation Damper (model # PC-RD05C5), sold separately.
