June 14, 2021

To MTI Customers:

We appreciate your ongoing support and patience in this unusual year in our industry. Due to continued and significant supply costs and operating expenses increases, we will be implementing a 5% price increase effective August 13<sup>th</sup>, 2021. This increase will affect all products, options, and packaging/crate fees. We will be providing updated pricing to you as quickly as we can in the weeks ahead.

We will honor any outstanding special quotes through the expiration date of respective quotes. Each quote will need to be updated for pricing beyond the expiration date of any given quote.

Thanks again for your support. Please contact your MTI Representative or me with any questions.
