

The logo consists of a circular emblem with a metallic, brushed texture. Inside the circle, the word "QUICKDRAIN" is written in a bold, white, sans-serif font. Below it, the letters "USA" are written in a smaller, white, sans-serif font. A small registered trademark symbol (TM) is positioned to the right of "USA".

QUICKDRAIN

USA™

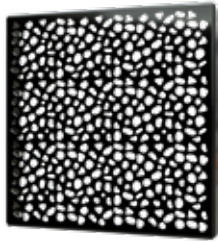

The title "PRICE GUIDE" is written in a large, bold, white, sans-serif font, positioned in the upper right quadrant of the page. The background of the entire page is a light blue and white striped fabric. Various nautical-themed items are scattered across the scene, including a clear glass bottle with a metal cap, a piece of brown twine, a section of a perforated metal grate, a piece of white mesh, and a thick, light-colored rope.

A MORE SOPHISTICATED SHOWER SOLUTION

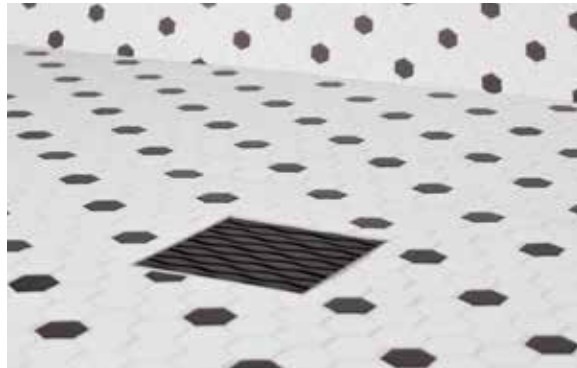

Design is an integral part of the QuickDrain experience. Elegance and performance working together in tandem, a seamless blend of style and engineering. More than drain, QuickDrain is a sophisticated curbed or curbless total shower solution full of refined detail.

For more details about our product lines, view our brochures available on QuickDrain.com

WallDrain

WallDrain offers the ultimate in shower luxury and design innovation, pushing performance to its limit. Because WallDrain is built into the wall instead of the floor surface, it offers a totally concealed and sleek look. You've never seen a drain like this before.

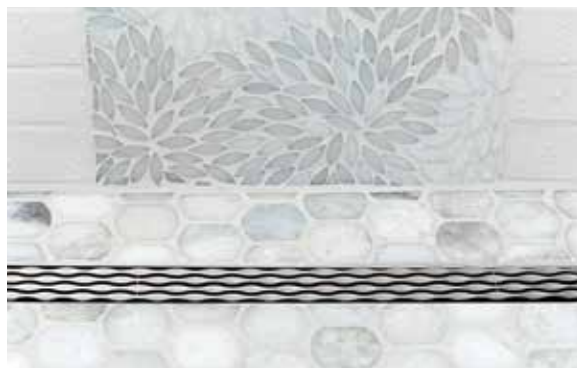

SquareDrain

An elevated point drain system that stands out from the rest for its design, ease of use, and versatility – helping homeowners, designers, and installers create a spa-like bathroom experience

ProLine

Offering a variety of drain waste outlet location options and a customizable drain body, ProLine is the ideal choice for construction jobs that involve specification requirements, including healthcare facilities or hospitality where PVC is not allowed.

ShowerLine

With a PVC Drain body, ShowerLine provides an efficient solution to installing a linear drain, while still maintaining superior style and functionality.

RETURN POLICY

Our return policy has some new features

Returns are accepted within 180 days of order ship date and are subject to a 25% restocking fee. Items must be uninstalled, in original packaging and in resalable condition. There are no returns on custom items. Customer must request and receive a Return Goods Authorization (RGA) number & form prior to returning product, must reference the assigned RGA number on return shipment, and include any related internal return or debit paperwork. Customer is responsible for return shipping costs unless otherwise noted.

Items shipped inclusively with another item and NOT included in the return will be charged back, thus reducing the amount of the credit.

**PLEASE submit return requests via e-mail to: insidesales@oatey.com and allow 48 hours for RGA creation.

MISSING OR DAMAGED ITEM(S)

Once an order is received (by you or your customer) it **must be opened & reviewed** for order completeness & accuracy within **48 business hours of receipt**. If there are any issues, the customer must contact QuickDrain USA **within 48 business hours of receipt**.

If packaging is visibly damaged in transit, customer **must contact** QuickDrain USA upon receipt.

TIPS FOR PLACING A PURCHASE ORDER WITH US

- Submit POs via e-mail: orders@quickdrainusa.com
- Spacers: The first set of spacers is included at no cost and is shipped with the drain assembly. Spacers are easily stacked in 1/8" increments to achieve a height up to 7/8". The quantity of spacers needed is determined by length of drain. Additional spacer sizes are available for purchase upon request.
- Be certain QuickDrain USA is the vendor shown on your PO.
- Be certain the correct terms show on your PO.
- If an order does not meet the minimum for prepaid freight, the order will ship pre-paid & charge unless you are providing a FedEx or UPS account number for a collect or third party shipment.
- If you know the order is for a commercial project, please provide the project name &/or our estimate number on the PO. All pricing for commercial projects are net pricing.
- PLEASE include your e-mail on the PO. That allows us to set up the shipment for you to receive a separate e-mail from FedEx or UPS which provides the tracking number.

PLANNING STEPS: Customer/Job _____ Date _____

Please sketch Dimensions and Drain Location.

Ordering Steps for WallDrain

Email to orders@quickdrainusa.com or insidesales@oatey.com

WallDrain drain bodies are composed of 316 L SS (Marine Grade Stainless Steel) and ship with Topical Liquid Applied Waterproofing Kit. Installer will provide actual liquid product.

1. Select your WallDrain Body Rough Opening measurements are in bold print (wall board to wall board). WallDrain Size: _____ Qty: _____
2. Your WallDrain Body will come with the appropriate size Tile-In Cover.
3. The QuickSlope Pan pieces or kits are determined by Drain Body Size. QuickSlope kits are composed of PET foam (recycled plastic bottles). PET Pan Kit Size: _____ Qty: _____

i. Curbed WD Pan Kits are offered in three stock sizes listed dimensions width x depth:

WDPAN4858 = 48" x 58"

WDPAN7258 = 72" x 58"

WDPAN9658 = 96" x 58"

Custom PET Panel configurations available upon request.

ii. Curbless Panel Kits are offered in a variety of stock sizes listed dimensions width x depth:

SLPANADA48 = 48" x 48"

SLPANADA64 = 64" x 48"

SLPANADA4874 = 48" x 74"

Custom PET Panel configurations available upon request.

Please feel free to contact us at insidesales@oatey.com if you require any assistance. The following information will be required in order to prepare your Bill of Materials sheet. Custom configurations available upon request.

- 1) Will this be a curbed or curbless installation?
- 2) Dimensions of the shower (measurement from wall board to wall board)
- 3) Drain location and provided sketch if able

Flow rates are as follows:

Drains installed at the back-wall or Curbed system can handle up to 12*gpm.

* Actual volume is limited by the plumbing lines and P-trap. Multiple drains can be linked together to accommodate greater water flow or larger shower footprint.

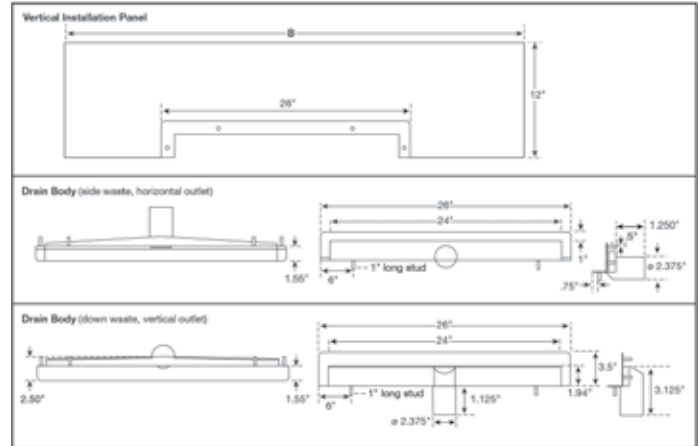

WallDrain must be mounted to the wall parallel to the entry in a Curbless shower system.

COMMERCIAL WASTE OUTLET DIMENSIONS

Commercial Waste Outlet

Commercial facilities have special building requirements to meet fire codes. Waste outlets can be made in custom vertical lengths from 2" to 14". Longer outlets allow waste lines to pass through concrete floors, so that the plumbing connection is made below fireproofing and accessible.

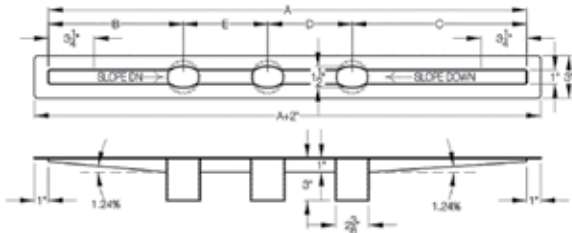

SIDE WASTE OUTLET DIMENSIONS

Side Waste Outlet

Primarily used in retrofitting situations when there are limitations on space and location of existing floors and outlets. The side waste outlet drops and turns 90 degrees and is only 2 9/16" deep, eliminating the need to drill through concrete.

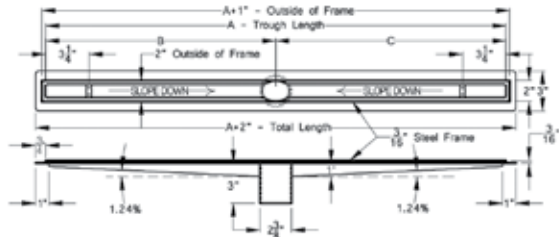

MULTIPLE WASTE OUTLET DIMENSIONS

Multiple Waste Outlets

Water flow output of more than 12 gallons per minute can be addressed with additional outlets on the drain body. QuickDrain waste outlets can accommodate this increased flow. While the appearance is similar to a standard drain, these solutions can double or triple water flow capacity.

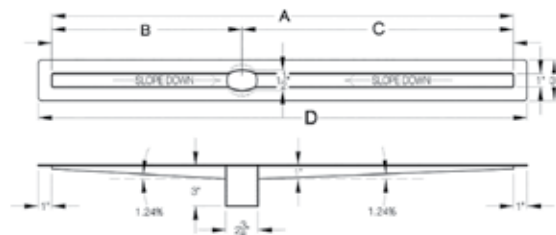

RESINOUS DRAIN DIMENSIONS

Resinous Drains

These drains are suitable for epoxy and urethane flooring, making them ideal for commercial use. The trough is surrounded by a 3 1/16" square stain less steel frame.

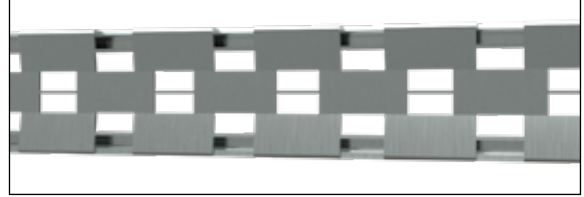

CUSTOM DRAIN DIMENSIONS

Non-Standard Size

Custom drains made in any size increment between 10"-100" long. Maximum size with one waste outlet is 68" total length not including the flanges. Drains longer than 68" must have two waste outlets per trough due to the depth, length and internal pitch of the trough.

Step 2: Choose Shower Drain Cover

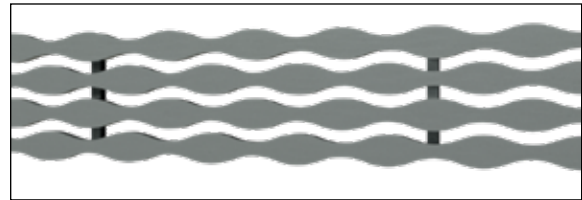

Cosmo Cover

- Required (Sold Separately). MICHAEL GRAVES DESIGN.
- Made of 18 gauge 304 stainless steel. Cover may be cut to exact finished size on site (cut with bandsaw, hacksaw, or angle grinder using appropriate blade) to ensure spanning vertical surface to vertical surface.
- Pictured above in brushed stainless steel. Available in 8 elegant finishes.

Ordering Steps for SquareDrain

Email to orders@quickdrainusa.com or insidesales@oatey.com

SquareDrain drain bodies are composed of 304 SS and are compatible with Topical Sheet Membrane and Topical Liquid Applied Waterproofing when used with our Universal Flange Adaptor. In addition, SquareDrain bodies are compatible to traditional PVC/CPE liner installations.

1. **Select your cover size, design, and finish.**
The required Cover size is included in the Drain Body description. Model Numbers consist of pattern, size, and finish. Example: (Deco04-MB) Deco Pattern 4" Drain Cover in Matte Black
2. **Your Drain Body will be selected based on your Cover size and desired finish.** Example: (CPD04-MB) 4" Drain Body in Matte Black
 - i. **Flange Adaptor Size is paired with respective Drain Body size as shown in Examples stated below:**
 - a. CPD04 = requires (SF) Small Flange Adaptor
 - b. CPD05 = requires (LF) Large Flange Adaptor
 - c. CPD06 = requires (LF) Large Flange Adaptor
3. **The QuickSlope Pan pieces or kits are determined by Drain Body Size. QuickSlope kits are composed of PET foam (recycled plastic bottles). SD pan kits are offered in two stock sizes: 36" x 36" and 48" x 48", with the ability to customize further with PET components.**
 - i. **Pan Recess Size is paired with respective Flange Adaptor Size.** Example: (SDPAN48-LF) SquareDrain Pan 48"x48" with Large Flange Adaptor Recess
4. **Pick Waterproofing Kit based on topical membrane preference. Compatible to Topical Sheet Membrane and Topical Liquid Applied Waterproofing.**
