

DISCONTINUED PRODUCT / LAUNCH NOTICE

Please be advised that due to higher than anticipated demand, the phase-out and transition of our Bosch induction line has been moved up. Effective immediately we will no longer accept orders for the following Phase-Out models. All orders going forward will need to be transitioned to the new successor models, previously scheduled for launch April 1st, 2022. We will be able to accept orders for the new models beginning next week (second week of February). Production and shipping of the new models will still begin in April, as originally scheduled. Spec Sheets for the new lineup are being finalized and will also be available shortly.

The only change with the newly launching models is the removal of the countdown timer feature, as now required by UL. All pricing and features remain the same as the predecessor models.
