

LYNX PRODUCT UPDATE - EFFECTIVE MAY 23, 2022

DATE: May 18, 2022

ISSUED BY: Kim Harris

Lynx Sedona Grills, Sedona Side Burners and Select Accessories – Due to supply chain issues, order backlog and continued increases on the specific steel associated with these models, effective May 23, 2022, Lynx will pause production of all Sedona grill models, Sedona side burners and select accessories (see chart below). After this date, no more new orders for these products will be accepted. All Dealer orders currently in our system and in backlog for these models will be produced and delivered to fulfill any contractual obligations. This will allow Lynx to focus on our core competency products, which are Professional grills. Lead times for the core Professional models will improve, as we shift all manufacturing capacity in that direction and provide increased throughput of our most important products.

As conditions become more favorable, we will re-evaluate these models and determine ways to redesign and reduce their manufacturing complexity and/or increase their pricing.

Model Number, Description and UPC Code

New Model Number	Description	UPC#
L500-LP	30" Built in Sedona Grill, 2 SS Tube Burners	810043020121
