Subject: NEW Qwik Jon® Choice and Qwik Jon® Premier now available!

Dear Valued Customer,

We have added several **new and improved** products to our Qwik Jon product line, the Qwik Jon Choice (Model 200) and the Qwik Jon Premier (Model 201). The new products include several innovative features and are competitively priced for new bathroom installations, remodels, and replacements. Features on the new Qwik Jon Choice and Qwik Jon Premier include:

- Convenient, recessed side inlets for other fixture drain connections such as a shower or sink. It doesn't just allow you to add a toilet but now you can add a complete bathroom!
- Smaller footprint for wider range of application. Not a ton of space is needed to add the bathroom of your dreams and when placed behind the toilet or behind the wall with the extension kit you may not even know it is there!
- The snap fit cover makes any maintenance easy and convenient for service plumbers.
- The sleek, modern design of the Qwik Jon Premier features a true grinder pump with Tri-Slice® Cutter Technology. This Tri-Slice® Cutter Technology provides 250,000 cuts per minute meaning the waste, toilet tissue and sanitary items that may enter the tank will not stand a chance! This is a wonderful option for residential or light commercial use where questionable items may be flushed.

With the marketplace's acceptance and preference for the new models, we have decided to discontinue Zoeller's older system, the Qwik Jon® Ultima. If you haven't yet had an opportunity to try out the new Qwik Jon Choice or Qwik Jon Premier, we think you will be very pleased with the results after you do!

At the end of this calendar year, the Qwik Jon Ultima no longer be available. From now until December 31, we will be clearing our stock of these products. Starting on January 1, 2023 you will be directed to purchase the Qwik Jon Premier upon purchase order receipt. Like the Qwik Jon Ultima, the new Qwik Jon Premier is a ½ HP grinder pump system. So, beginning in January 2023, if you are looking for an equivalent to the Ultima, we recommend purchasing the easy to stock Qwik Jon Premier (p/n 201-0006 for the QJP tank only or 201-4000 for a package containing both the toilet and Premier).
