

# ThermaSol 101 - Recap

## WHAT MAKES THERMASOL DIFFERENT?

**No Questions Asked Lifetime Warranty** - Absolutely no questions asked **Lifetime Warranty!** Once a ThermaSol customer - always a ThermaSol customer!

**CAN-Bus Digital Technology** - The latest, most robust, **error-free communication** between controllers & generators.

**Stainless steel, Split Tank Design** - ThermaSol's split-tank technology allows our steam generators to use an exclusive "**Tear-Drop Replacement Method.**" No on-and-off cycling, making it a green feature & creates a quieter steaming experience!

**FastStart Technology** - an "industry first" feature that allows clients to obtain **steam in seconds, not minutes!**

**PowerFlush - Exclusive and Most Advanced Cleaning System.** PowerFlush was specially engineered to purge calcification build-up from the inner tank.

**Smart Steam - Patented technology only from ThermaSol.** SmartSteam™ delivers the **ultimate in temperature control** – **no temperature fluctuations!** The optimum in user comfort.

ThermaSol was founded in 1958 when our founder David Altman installed and patented the 1st residential steam shower. And 65 years later, we continue to set the standard in customer service and innovation, holding five patents and several exclusive industries firsts. ThermaSol is still a family owned and operated company and proudly made in America!

**SO, WHEN YOUR CUSTOMERS ASK "WHAT SETS THERMASOL APART", YOU CAN SAY EVERYTHING!**

## SIZING MADE SIMPLE!

**L x W x H = Cubic Feet** - Take your cubic feet total and match it up with the appropriate generator - that's it!

LENGTH		WIDTH		HEIGHT	
FT	60	IN	FT	72	IN
FT	96	IN			
TOTAL CUBIC FEET 240					NEXT

The model number represents the maximum cubic feet that each generator will accommodate.

**It is recommended to upsize one size per foot over 8 feet for best results. Ceiling heights should not exceed 10ft.**

MODEL	CAPACITY	AMPS
PROIII-84	Up to 84 cubic ft./ 6kW	28
PROIII-140	Up to 140 cubic ft./ 8kW	37
PROIII-240	up to 240 cubic ft./ 10kW	46
PROIII-395	Up to 395 cubic ft./ 11 kW	55
PROIII-575	Up to 575 cubic ft./ 15kW	69
PROIII-750	Up to 750 cubic ft./ 20kW	92
PROIII-1200	Up to 1200 cubic ft./ 24kW	110

Example:

$$8 \times 8 \times 8 = 512 \text{ Cubic Feet} > \text{PRO-575}$$

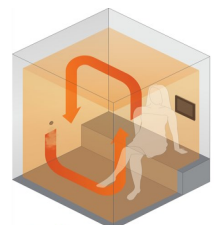

$$5 \times 4 \times 8 = 160 \text{ Cubic Feet} > \text{PRO-240}$$

$$8 \times 6 \times 9 = 432 \text{ Cubic Feet (skip PRO-575)} > \text{PRO-750}$$

$$5 \times 8 \times 10 = 400 \text{ CUBIC FEET (skip PRO-575 \& PRO-750)} > \text{PRO-1200}$$

## STEAMVECTION STEAMHEAD

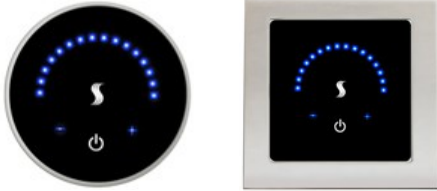

• **Safety, Comfort & Relaxation**- SteamVection delivers **floor-to-ceiling temperature uniformity.**

## THERMASOL CONTROLLERS

**MicroTouch** - Low-profile, in-shower steam-only control with capacitive touch technology & temperature sensor.

- 90-120 in 2-degree increments
- Preset 45-minute timer
- Recalls previous temperature setting
- Contemporary: Round / Wall Mount - Modern: Square / Recessed (*all finishes available*)
- Compatible Products: SteamVection Steamhead

**SignaTouch** - Manage lights, music, steam, precision water pressure & temperature control for in-shower fixtures\* without apps or smart home assistants.

- Two customizable user profiles
- Can be mounted horizontally or vertically
- Contemporary: Wall Mount (*all finishes available*) - Modern: Recessed (*black or white finish only*)
- Compatible Products: HydroVive, Serenity, \*Digital Shower Valve, SteamVection Steamhead

**ThermaTouch** - Manage lights, music, steam, precision water pressure & temperature control for in-shower fixtures\*, app store, tranquility scenes, and voice command assistants

- Two customizable user profiles & guest profile
- Integrated App Store featuring the most popular platforms
- Nine stunning built-in tranquility scenes
- Integrated Bluetooth Connectivity, Connection to the internet via Wi-Fi or Ethernet Cable
- Alexa Compatible
- 7" (*black or white finish only*) - 10" (*all finishes available*)
- Compatible Products: HydroVive, Serenity, \*Digital Shower Valve, & SteamVection Steamhead

## DIGITAL SHOWER VALVE

**The Technology Behind The Wall** - Ultimate Precision Control of Water Pressure & Temperature

- 3 Outlet Shower Valve - 1 function at a time
- 9.25 Gallons Per Minute (GPM) & 45 Pounds Square Inch (PSI)
- Ceramic Flühs Valves, Two 400 Position Stepper Motors, Integrated Diverter & Mixer
- Compatible Products: ThermaTouch, SignaTouch, HydroVive, & Serenity

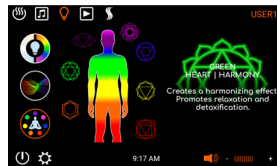

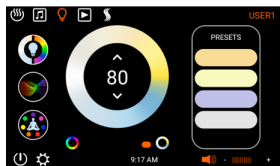

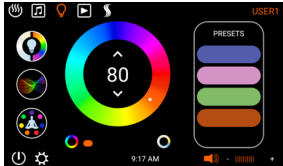

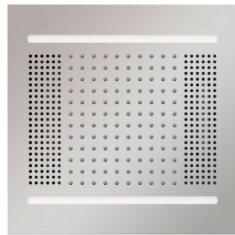

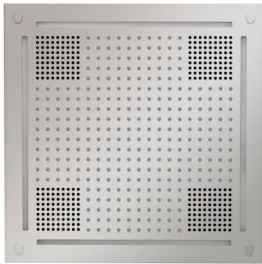

FULL-COLOR SPECTRUM LUMINOUS LEDS WITH PRESET CHROMA-THERAPY CHAKRAS

STATE-OF-THE-ART SPEAKERS DELIVER LOW DISTORTION, NATURAL RESPONSE, AND AMAZING HIGH-FREQUENCY CAPABILITY

RAINHEAD SHOWER DELIVERS A GENTLE FALLING WATER SENSATION

Compatible With These ThermaSol Products

ThermaTouch

SignaTouch

Digital Shower Valve

## PACKAGES

### Total Wellness Packages - Included Products & Options

Controller: 10" – 7" ThermaTouch or 5" SignaTouch  
 Light, Sound & Rainhead: 18" – 14" HydroVive or Serenity  
 Digital Shower Valve  
 SteamVection Steamhead  
 (Generator Not Included)

### Wellness Shower Packages - Included Products & Options

Controller: 10" – 7" ThermaTouch or 5" SignaTouch  
 Light, Sound & Rainhead: 18" – 14" HydroVive or Serenity  
 Digital Shower Valve

### Wellness Steam Packages - Included Products & Options

Controller: 10" – 7" ThermaTouch or 5" SignaTouch  
 Light, Sound & Rainhead: 18" – 14" HydroVive or Serenity  
 SteamVection Steamhead  
 (Generator Not Included)

### Digital Shower Packages - Included Products & Options

Controller: 10" – 7" ThermaTouch or 5" SignaTouch  
 Digital Shower Valve

### Control & Steamhead Kits - Included Products & Options

Controller: MicroTouch (shown)  
 SignaTouch & ThermaTouch Can Be Used As Steam Only  
 SteamVection Steamhead  
 (Generator – Not Included)
