Seller’s terms and conditions of sale set forth on the sales order confirmation or invoice will constitute the entire agreement between Seller and Buyer with respect to the subject matter of the sale and will supersede all prior agreements, negotiations, understandings, representations and warranties, whether written, oral or otherwise, and may not be modified except in writing signed by the parties. The terms and conditions of any document used by Buyer to communicate its order of goods and any terms or conditions that could be implied on the basis of course of performance, course of dealings, usage of trade or otherwise are expressly excluded.

All proposals, negotiations, and purchase orders, if any, will be merged into a sales order confirmation or invoice.

If damage or shortage is detected, it should be duly noted on the bill of lading before signing for merchandise. * Ultra flush engine is designed to outperform competitors' bowls in cleanliness and plug resistance, engineered to flush effectively at low water pressure and flow, and has a flexible water-consumption rate.

† Innovative adjustable-height Modflex connector attaches to the existing wall carrier, requiring no construction behind the wall. Saves thousands of dollars in lost room revenue, material, and labor. Retrofit takes less than one hour compared to one to two days for a total renovation.

‡ Tend features a P-trap that can be removed and replaced if necessary, allowing you to reuse the vitreous china.

Items with the antimicrobial variation have an antimicrobial agent that is baked into the glaze and inhibits the growth of mold-, mildew-, stain-, and odor-causing bacteria on the fixture's surface. This product does not protect users against bacteria, viruses, or other disease organisms.

All fixtures and flushometers listed, with the exception of the 1.6 gpf options, are WaterSense® labeled.

All fixtures and flushometers listed, with the exception of Wellcomme, are compliant to ADA when installed to the specific requirements of this regulation.
