

Fixture Compatibility Chart

2-PIECE

1-PIECE

1-PIECE W/
FRENCH CURVE

Bemis products are designed to fit almost all 1- and 2-piece toilets. However, there are some exceptions with "1-piece w/ French Curve" toilets. If you have a 1-piece toilet with a deep French curve, please contact us at 847.458.2334 or bidets@BemisMfg.com with the make and model of your toilet for a compatibility check.

VORTENS

Compatible Medalist 3123, Medalist 3151

Models with a * next to their names are 1-piece toilets. 1-piece toilets should be viewed with extra scrutiny as the width of the unit where the tank connects to the bowl could be too wide for our non-electric bidet (WellSpring) to fit since some of their components hang down to the left or right side of the toilet. However, these 1-piece toilets should pose no issue with our electric units (Haven 1000, Haven 3000, Haven 5000) as they fully sit on top of the toilet rim.
