Brushed Gold Wood Handle

SOFT MODERN DESIGN FOR A CLEAN AESTHETIC

The Tenon kitchen faucet collection brings warmth to the modern kitchen.

The spout's soft, sweeping double arcs blend organic and symmetrical shapes to create a calming and comfortable form, while the tall faucet stature makes it a statement piece at the sink. Tenon is available as a pull-down faucet, a Moen Smart Faucet with Motion Control and a pull-down bar faucet. The faucets all include an integrated pull-down spray wand that nests neatly inside the spout. The concealed design enables users to enhance their experiences with water through great style and innovation, as it provides additional functionality without disrupting the clean aesthetic. Modern kitchen complements complete the look. Available Q4 2023.

Moen® received the highest numerical score in the proprietary Lifestory Research 2016–2023 America's Most Trusted® Faucet studies. Study results are based on experiences and perceptions of people surveyed. Your experiences may vary. Visit lifestoryresearch.com.
