

Forno de Pizza Dealer Display Program

Display Oven Program

Dealer Display Program:

This program offers all Forno de Pizza dealers the benefit of having a showroom oven display that engages their customers in the easy operation of the ovens and the endless cooking possibilities that the ovens offer. It will educate and promote some of the experiences that the ovens have to give.

There is more to experience than just pizzas!

You may have one Forno Series (on a cart) or one Villa Series (built-in) Display per store. Let us know if you are interested in a Di Napoli model display program. The display oven is functional. It will have a 32-inch Smart TV mounted into a custom display stand. The display stand can easily attach to the back of the oven's hearth. Also included is a thumb drive to play an assortment of cooking videos.

Display Oven Video
