SHIPPING

Cabinets and modules

Shipping costs are determined by weight, size and destination. We are associated with companies specialized in this type of delivery and can make you benefit from our negotiated preferential rates. At the time of order, a member of our Customer Service team will contact you to confirm the delivery parameters and send you a cost estimate.

A qualified delivery team will unload your order from the delivery truck and lower it to the outside sidewalk of your home. You will be responsible for moving the goods beyond this point.

Accessories and small parcels

Shipping charges for small orders of accessories will be handled via the standard small parcel service. If you want to receive your order faster or if the delivery address is located outside the continental United States or Canada, please contact our Customer Service to check shipping charges.

***Please refer to the SHIPPING COSTS ANNEX document for all valid pricing.**

For any question, you may contact your local agent or our customer service.

Customer Service

Our Customer Service Department is totally committed to providing support before, during, and after purchase. If you have a question or would like to place an order, a member of our team will be happy to provide advice and assistance. Contact us Monday to Friday, 8 a.m. to 5 p.m. EST.

A large stack of cut lumber, likely pine or spruce, is shown in a warehouse or mill setting. The wood is stacked in neat piles, with the grain of the wood clearly visible. The background is slightly blurred, showing industrial structures and a bright light source, possibly a window or an open door.
