AMAHLE™ BATH COLLECTION

Beauty is defined by a combination of qualities that please the aesthetic senses, especially the sense of sight. These are the same qualities that perfectly describe the Amahle™ Bath Collection. Flow and form, straight contours and curves combine to create a sense of dynamism and movement. The fine arc of the faucet is juxtaposed with a selection of handles from perfect circles to crisscrossing lines to right-angled levers, all enhanced with beautiful detailing that pays homage to the form. Beauty is something that can be elusive and rare, yet Amahle achieves that accolade with ease.
