PALLADIAN® BATH COLLECTION

Spectacular arches and classical proportions define the famous Palladian window, created by Renaissance architect Andrea Palladio. To this day, the style makes an impression of drama and elegance. The Palladian® Bath Collection echoes the show-stopping beauty of its namesake. The design has a modern edge reminiscent of Art Deco. The nuanced arc of the neck and strong angles of the handles and base reflect light with shine and luster. Palladian makes a striking impact in baths with a transitional, modern, or even traditional feel.
