

# ROHL®

## 1983 KITCHEN COLLECTION

In 1983, a revolution happened in the kitchen. This was the year the pull-out faucet was introduced to America by ROHL®. The 1983 Pull-Out/Pull-Down Collection combines innovation and ease in a timeless design. Antiscald technology, dissimilar ceramic discs for longevity and smooth operation, as well as a stainless steel coil and chlorine-resistant inner liner are the technical facets that transformed cooking and effortless cleaning. 1983 combines classic shapes in a contemporary form with state-of-the-art beauty for transitional décor.
