ECLISSI™ KITCHEN COLLECTION

Something magical happens when the sun aligns with the moon. This astronomical phenomenon is the inspiration for the Eclissi™ Kitchen Collection. Eclissi, Italian for eclipse, has a modernist feel of simplicity that belies its true beauty. Each circle-shaped handle contains a smaller, inner circle, mirroring the meeting of the two luminaries. The Collection takes a bespoke approach, with numerous options for circle finishes for a multitude of handle combinations, as well as two spout designs, to make the design your own. Like their celestial inspirations, Eclissi shines beautifully in any space or style of kitchen décor.
