

EGERTON™ KITCHEN COLLECTION

The Egerton™ is a casement apron front sink—the classic farmhouse shape with an extra touch of detailing. The Egerton's inset frame adds distinction as well as a more traditional feel, making it perfect for country kitchens seeking authenticity. Its longer rectangular shape is roomier, too. As with all Shaws® heavy fireclay sinks, the Egerton is molded, glazed, fired, and signed by one master craftsman, following a tradition of handcraft from 1897. The result is a sink of iconic beauty, resilience, and lifetime performance.
