

Brizo Mystix Steam Systems: Helpful Guide to selling INVISIBLE SPEAKERS

Brizo Mystix Steam System units offer optional *Aromatherapy, Chromatherapy and Audiotherapy* components to heighten the luxurious spa experience.

BRIZO

Audiotherapy add-ons include INVISIBLE SPEAKERS, which offer a clean look with hidden speakers.

Here are some important factors about Invisible Speakers to consider during the sale. If the factors below prevent you from selling invisible speakers, the Delta steam speakers 5SP-MU-3 will work perfect with your Brizo steam units.

1. TILE less than ½ inch thickness with a concrete board behind works best with Invisible Speakers.
2. Natural stone ½ inch or greater in thickness, do not use the Invisible Speakers, use Delta classic speakers 5SP-MU-3. Natural stone will muffle the sound.
3. If a backboard behind surface is foam, the Invisible Speakers cannot be used.
4. Construction material for steam rooms is normally ceramic tile, porcelain tile, glass, glass block, natural stone. Less than ½ inch thickness is recommended for Invisible Speakers.

Feel free to call your Libb salesperson, or the Libb inside sales staff for help with steam.
